ONE MAN, ONE VOTE.

In an editorial yesterday morning in regard to the manner of voting for senators and representatives The Republican committed an error when it said, "To vote for members of the house of representatives place a numeral opposite each name. That is, if you want to cast one vote for each man on the ticket place the figure 1 opposite each name. If you want to vote for one man only, place a figure 6 opposite that man's name so as to give him the benefit of the six votes."

This statement was based upon sections 59 and 61 of the Organic Act, providing the methods of voting for representatives and senators and on the second paragraph of section 100 of the Appendix to the Civil Laws of Hawaii governing the election of representatives, which reads: "A voter shall designate his choice for representatives by making an Arabic numeral or numerals on the right hand side of the ballot, in the space or spaces provided for such purpose, opposite the name or names of the candidate or candidates for whom he desires to vote, indicating the number of votes which he wishes to cast for such candidate or candidates."

Yesterday Col. J. Harry Fisher, treasurer of the republican territorial committee, called attention to section 64 of the Organic Act, which goes into detail in amending the "Rules and regulations for administering oaths and holding elections as set forth in Ballou's Compilation, Civil Laws, Appendix," in the second paragraph of which the second paragraph of section 100 of the Appendix is expressly repealed.

This does away with the cumulative plan of voting for representatives formerly in vogue in Hawaii and a voter can only cast one vote for any one candidate for representative the same as for senator. The method of marking the ballot for the vote for representative is not expressly provided owing to this repeal of the second paragraph of section 100 of the Appendix, but it is understood that it will be by the X the same as in marking the ballot in voting for senators.

The school board of San Diego, California, has taken radical action to prevent having at the high school. The having practice has been growing there

for several years until a lot of youths thought it a great thing to attack new pupils. Two weeks ago a young son of Deputy Sheriff Fred Jennings was thrown into a pit on the school grounds in which the janitor burns the waste paper and refuse from the school house. The pit contained a lot of live coals and the lad was severely burned. The subject was at once called to the attention of the school board and seven boys, all of whom admitted their guilt, were sentenced to deprivation of all privileges of the school grounds for a period of six months and are to be detained for one hour after the dismissal of the school in the afternoon, for a period of thirty days. The school board expressed a determination to break up all hazing in the school.

GO ON BUILDING SIDEWALKS.

Because it objected to the appointment by Governor Dole of J. A. McCandless as superintendent of public works, the Advertiser is now seeking excuses to attack that official just as it does every man whom its owner cannot use for his personal advantage. Because the superintendent is doing some most excellent work for Honolulu in the matter of laying cement sidewalks, this paper is decrying him and decrying sidewalks. The last is to be expected, for like all mossbacks it is constitutionally opposed to anything which will lift Honolulu out of the position of a dirty-looking, rambling village into a clean, orderly-looking city. Under the present superintendent of public works, not only are the streets being macadamized and improved, but pavements are being laid around public parks and grounds, "as object lessons," as Mr. McCandless well says. Until the sewer system is completed and connections with houses made it would be foolish to attempt to pave or macadamize the residence streets, owing to the necessary excavations for sewer connections. Just now Honolulu is in a transition period and during that period one improvement that can be made, which is of the greatest value to the city and will do more than anything else to transform it into a metropolitan city, is the building of good sidewalks. Good sidewalks are of fully as great, if not greater, importance to this city just now than paved streets, though both will come in due time.

Upon the recommendation of the war department the agricultural department is preparing an order setting apart as forest reserves the island of Remolin, north of the island of Puna; also the island of Pautau, which is one of the extreme group of the Jolo Islands. Officers of the army who have been looking over the islands have found that these are perhaps the richest islands in the world for rubber-trees, and it is the intention of the Washington authorities to have the trees preserved and cared for, especially as some fears lately have been expressed that the rubber supply may become exhausted.

The city of San Jose, California, with a population of 50,000 and having a mayor and common council as well as board of health, park commissioners, fire and police board, board of education and the like, pays less per annum for its city government than the maintenance of the board of health of this city costs. And yet there are people who are all the time harping about the cost of city government.

As long as the Honolulu telephone system is in the hands of men who believe in paying girl operators only \$20 a month and men operators only \$35 a month, the service will never be as good as it is. What kind of help can be expected at these wages? Even in San Francisco, where the cost of living is not one-half what it is here, the girl operators are paid \$30 a month for eight-hour shifts.

It has been decided to start the good roads movement in the island of Luzon by putting \$1,000,000 into roads and bridges. That one thing will be more than Spain did for the Philippines in all the many years that the yellow flag waved over that land. Five thousand dollars has also been set aside for a preliminary survey for a road from Dagupan to Benguet.

Well, what do you Honolulu people expect; hasn't our telephone company got to make twenty per cent per month on its investment? Well, then, do you suppose we can pay girl operators more than \$20 a month and men operators who work thirteen-hour shifts more than \$35 a month?

Prompt and more vigorous action must be taken by the board of health and territorial physicians in examining school children and giving them health certificates. The mingling of contaminated children with healthy ones must be stopped at all hazards.

Serious work confronts the republicans of Hawaii. The party must not underestimate the strength of the opposition. It is active and vigorous and drumming up voters at a lively rate.

Hazing at schools and colleges is a species of barbarity that cannot be punished too severely. It is to be hoped, if it ever crops up in Hawaii,

that the first offenders will be taught such a lesson that a repetition will be impossible.

If the pre-historic ideas of the Advertiser were only followed out grass would be growing on every street in Honolulu and people would go barefooted over cow-paths.

A paper that is opposed to municipal government and all other advancement for the good of Honolulu must be expected to oppose the construction of good sidewalks.

When is that ugly iron fence around the capitol grounds coming down? Away with it and throw the grounds open to the people to whom they belong.

That's What He Did.

(From the Boston Globe.)
So Judge Este of Honolulu rules that the inhabitants of Guam are citizens of the United States by virtue of the annexation of the island. And this, too, with a presidential campaign well under way!

Why He Refused a Consulate.

F. L. Huidekoper of Washington tells an amusing story of a disappointed office-seeker of years ago.
"Back in '56," says he, "when Buchanan was running for the presidency, he had an intimate friend in a western state who was also a friend of mine. This man worked early and late for Buchanan's cause and really did as much as any one else to put his state in the Buchanan column on election day."

"My friend, whom we will call Smith, had a wife who was an invalid. He thought that he was entitled to some recognition for the work he had done as he was—and he applied for a consulate on the coast of the Mediterranean, believing that the journey there would improve his wife's health."

"Months went by and he heard nothing of his application, except that it had been received by the president. Then came the blow. He was notified that he had been made consul at some little town in Iceland! Smith sat down and wrote a letter which I saw before it left, so I can vouch for it. The letter read:

"To One James Buchanan, President of These United States:

"Since applying to you some months ago for a consulate on the balmy shores of the Mediterranean my wife, who was ill, has gone to heaven and you can go to—"

It Happened in a Drug Store.

"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. R. Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it worth the money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back in company with a friend in need of a cough medicine and advised her to buy a bottle of Chamberlain's Cough Remedy. I consider that a very good recommendation of the remedy." The remedy owes its great popularity and extensive sale in a large measure to the personal recommendations of people who have been cured by its use. It is for sale by Benson, Smith & Co., general agents, Territory of Hawaii.

Registration hours 10 to 1 and 5 to 8.
